Happy women's day

The power of women is immeasurable and undeniable. Women have made significant contributions to society in every field, from science and technology to politics and the arts. Despite facing countless obstacles and challenges throughout history, women have proven time and time again that they are capable of achieving great things.

Women have also played a vital role in shaping families and communities. They have been caregivers, nurturers, and providers, and have played a crucial role in the development and growth of their children and families.

In conclusion, the power of women is immense, and it is crucial that we continue to recognize, celebrate, and support the contributions of women in all aspects of life. By doing so, we can create a more just, equitable, and prosperous world for everyone.

FELLOWSHIP

7th March 2023 Members from Inner Wheel Club Udipi enjoyed a day's excursion with fun and frolic at King of Kings Island.

Once more yearly Inner Wheel picnic,
day out for ladies,
Leaving back at home our routine,
tension and worries At "King of kings",
we were the uncrowned queens,
Forgetting our age we felt we were in our teens
Was it me on the platform and in the deep waters?
I would not have, without my encouraging dears !
Enjoying backwater views boat ride,
serene and soothing Every topic of our interest
we enjoyed discussing To create memories,
videos were shot and photos clicked,
Games that got our otherwise rusting brain cells
charged With all the exercise,
delicious food and carrot halva we enjoyed,
Thank you dear friends for the enjoyable and lovely
day Let's do this more often is all that I have to say.
